TAATACGACTCACTATAGGGAGA

Genomes (> 500,000 bp)

Increase process speed and reliability

Genes (200 < 500,000 bp)

Increase process speed and reliability

Oligos (<200 bp)

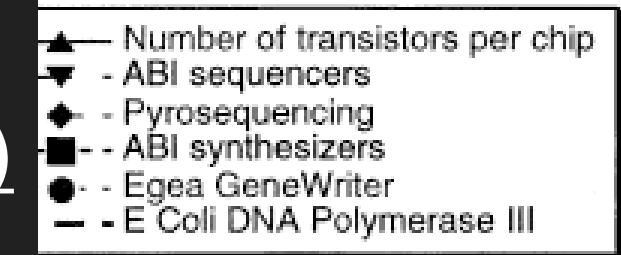

Move synthesis inside cells,  
displacing below

Reagents

OK

Raw Materials

OK, given shift from  
salmon to sugarcane

**Productivity Improvements in  
DNA Synthesis and Sequencing**  
(as of October, 2002)
